

YOUR LOVE IS EVERYTHING

What a life
What a time we had
So many memories
Some are good
Some are sad
But I wouldn't change a thing

Through it all
You stood by my side
Even though
I wasn't there at times
Through thick and thin
You were always there
With a loving smile

Your love is everything
Nothing else means more to me
Your love is everything

Don't it seem like yesterday
Has gone by so fast?
Even though our life have changed
Our love will surely last

Through it all
You never let me down
Even though
I wasn't always around
Through thick and thin
You were always there
With a warm embrace

Your love is everything
Even more than the air I breathe
Your love is everything

Through thick and thin
You were always there
With an open heart

Your love is everything
Nothing else means more to me
Your love is everything

Your love is everything
No other face that I'd rather see
Your love is everything
Everything and more

Your love is everything
It's everything and more

LAND OF DREAMERS

Can't believe what I'm witnessing now
What's goin' on?
Need to find a way back somehow

Everything we know
Is falling under siege
All we have and we hold
Is slipping out of
Slipping out of our hands

We all live in a land of dreamers
Isn't that what we're built upon
Everybody needs something to believe in
Under it all
We're all dreamers

Don't lose hope
Or sight of your dreams
Don't you know
Angels are watching over you
Lighting the way and guiding you

How'd we every get to this place
So far out of line
All around I see nothing but hate

Everything I knew
No longer fits in a mold
No matter what you do
Angels are watching over you
Lighting the way and guiding you

We all live in a land of dreamers
Isn't that what we're all about
(what we're all about)
Everybody needs something to believe in
Under it all
We're all dreamers
Yeah we're dreamers

We all live in a land of dreamers
Isn't that what we're built upon
(what we're built upon)
Everybody everywhere is a believer
Under it all
We're all dreamers

We're all dreamers

Yeah...

We all live in a land of dreamers

Under it all

We're all dreamers

We're all dreamers

Yeah...

Under it all

We're all dreamers

We're all dreamers

DON'T LAST THAT LONG

I hope you had a good life

One with no regret

Was it everything you thought it be

We're only given one chance

So we better get it right

No tellin' when the sun comes up

We'll live to see the day

Treat everyday like

It could be the last one

You never know what

Lays up ahead

Keep singin' your heart out

Like you've never done before

It don't last that long

No it don't

No it don't

It don't last that long

I hope you fought a good fight

Stood fast by your ground

Never a thought of backing down

The end of an era

The changing of the guard

You carried the torch for one and all

Now it's time to pass it on

Treat everyday like

It could be the last one

You never know what

Lays up ahead
Keep singin' your heart out
Like you've never done before
It don't last that long
It don't last that long
It don't last that long

No tellin' when the sun comes up
We'll see the light of day

Treat everyday like
It could be the last one
You never know what
Lays up ahead
Keep singin' your heart out
Like you've never done before
It don't last that long
It don't last too long
It don't last that long

Treat everyday like
It could be the last one
You never know what
Lays up ahead
Keep singin' your heart out
Like you've never done before
It don't last that long
It don't last that long
It don't last that long

IN THIS TOGETHER

We're in need of a better plan
Seems to me it's gotten out of hand
I wonder when we're gonna take a stand

We're all in this together
Goin' out on a limb
Holdin' on to forever
Takin' the dream to the end

Do you believe in a better place
One we can build with both love and grace
It takes a village to pave the way

We're all in this together
Crazy as it may seem
We're all birds of a feather
Each of us sharing the dream

We're in this together
Together

There's no way we can let them take us down
Even as dark as it seems
Somehow we're gonna turn this thing around
If we're gonna make it in this world

I hear a lot of politicians rant
About the things they'll do and what they can't
Why don't they get their heads out of the sand

We're all in this together
Goin' out on a limb
Holdin' on to forever
Takin' the dream to the end

We're all in this together
Crazy as it may seem
We're all birds of a feather
Taking the dream to the end

KEEP IT ALIVE

Looking onward
With my heart in hand
Ever mindful
Of all I don't understand

I know we're a long long way
From the world that we dream of
It's all we can do to keep it alive

Moving forward
To the mountaintop
Tho' it seems hopeless
We can never stop

I know it's a long long way
To the place that we dream of
No matter the cost
We've got to try
It's all we can do to keep it alive

Come what may
We are the love that we make
Just know the truth is gonna be revealed
Nobody's gonna change the way we feel

Looking inward
To the depths of our minds
What surrounds us
Changes with time

I know we're a long long way
To the place that we dream of
No matter the cost
We've got to keep tryin'
When all seems lost
We'll keep it alive

Keep it alive

LEAVE ME HEART ALONE

Now here I am alone again
Wonderin' if this how it ends
You can't say you didn't tell me so
Well how could I ever know
Well there's nothin' more for us to say
Because you've taken all my tears away

Just say what you've gotta say
And leave it alone
Don't treat it like it's all a game
Just leave my heart alone
Just leave it alone

I can't seem to do anything right
Can't even find my way home tonight
I know I need to be strong enough
But that's easier said than done
Do me a favor and let me be
Don't make this harder than it needs to be

Just say what you've gotta say
And leave me alone
Don't treat it like it's all a game
Just leave my heart alone

Just say what you've gotta say
And leave it alone
Don't treat it like it's all a game
Just leave my heart alone

You need to walk away
And don't look back
Because I've known you long enough to know

There's a distance in your eyes
That you just can't disguise anymore

Just say what you've gotta say
And leave me alone
Don't treat it like it's all a game
Just leave my heart alone

Just say what you've gotta say
And leave me alone
Don't treat it like it's all a game
Just leave my heart alone...

HOW LONG MUST I WAIT

I came across an old picture of you
It took me way back in time
I thought by now I'd be well over you
I thought by now

You know it seems like another life
That I barely remember
I'm not the man that I was inside
I'm not that man

Now will I ever be completely free
Or will this feeling be always with me
Tell me

How long must I wait
Till the memory fades away
How long does it take
Till the feeling's washed away
I don't wanna spend my life thinking only of you

Looking back on who I was back then
So unsure of myself
I won't let my heart be that lost again
No never again

We I live to see the day
Will I learn from mistakes I have made
Tell me

How long must I wait
Till the memory fades away
How long does it take
Till the feeling's washed away
I don't wanna spend my life thinking only of you

How long must I wait
Till the memory fades away

How long must I wait
Till the memory fades away
How long will it take
Till the feeling's washed away
I don't wanna spend my life thinking only of you

How long must I wait
Till the memory fades away
How long does it take
Till the feeling's washed away
I don't wanna spend my life thinking only of you

How much longer
How much longer

I don't wanna spend my life thinking only of you

How much longer
How much longer...

BAD FEELING

I've got a bad feeling
About this situation
Don't know what's up or down or sideways
All rhyme and reason
Doesn't make any sense at all
I can't get my hopes too high

No it's no way to live a life
On the edge of truth and lies

It won't be too long
Till we see the day
When all hope is gone
When our hearts will break

All we can hope for
Is to hold on to what we knew before
Until we find the strength

It's been a bad season
Everything's out of place
Cuz' nothin' I do seems to matter

Searchin' for a meaning with some reservations
I can't get my hopes too high

How did we ever get to this place
How do we make it all go away

It won't be too long
Till the time is here
When all hope is gone
And love will disappear

All we can hope for
Is to hold on to what we knew before
Until we find the strength

Turn it around
We can turn it around
It's up to you and me
We gotta find new ground

It won't be too long
It won't be long
We'll see a brand new dawn
We'll just keep holdin' on

All we can hope for
Is to hold on to what we knew before
Until we find the strength

I've got a bad felling
About this situation
Don't know what's up or down or sideways

BACK ON YOU

I'm in wonderment everyday
Seems like the world is going through a change
Whatever happens we may not ever be the same
Everything that I thought I knew
Suddenly doesn't ring so true
Now I'm wondering if anyone really has a clue

I'm ready for it all to end
Turn the page and move on again
Get this all behind us
Once and for all

Who would ever thought there'd come a time
When all we'd know we'd barely recognize

There's no logical reason that I can find

I don't wanna hear another lie
Or any promises you can't realize
I can't stand to hear another God damn lie

It's just a matter of time
Before it comes back on you
There's just no denying
The devil's gonna meet his due
May not know what's ahead
But there's surely one thing I know
It's just a matter of time
Before it comes back on you

I don't think you know how to feel
To look inside and know what's real
Even though you claim you've got the art of the deal

I'm ready for it all to end
Turn the page and move on again
Get this all behind us
Once and for all

It's just a matter of time
Before it comes back on you
There's just no denying
The devil's gonna meet his due
May not know what's ahead
But there's surely one thing I know

It's just a matter of time
Before it all comes down
What goes up must come down

It's just a matter of time
Before it comes back on you
There's just no denying
The devil's gonna meet his due
May not know what's ahead
But there's surely one thing I know

It's just a matter of time
Before it comes back on you
There's just no denying
The devil's gonna meet his due
May not know what's ahead
But there's surely one thing I know
It's just a matter of time
Before it comes back on you

Just a matter of time
Before it comes back on you...

I DON'T SEE WHY

So many years years of changes
So much of life gone by
Love's come and gone
Just like a stranger in the night

Who would have thought we'd be meeting
After all this time of wondering why
We let it all slip away somehow
Tell me what was going through our minds

Let me look at you baby
Let it all come back to me
We're older but wiser
Than what we used to be

I know we both fear the question
Can we pick it up where we left it off
There's only one way to find out
Who's to say if we are right or wrong

I don't see why
We can't take it from here
Make a go of it again
One day day at a time
All our hopes and our fears
Become one in the same
You never know where it'll lead to
Where else can we begin
I don't see why
We can't make it from here
Take it from here and now

How the years have changed us
Although some things never change
For only now really matters
If you and I both feel the same

Let's take a walk through the valley
Until we reach the point of no return
We'll never know until we get there
On the way we'll only live and learn

I don't see why
We can't take it from here
Make a go of it again

One day day at a time
All our hopes and our fears
Become one in the same
You never know where it'll lead to
Where else can we begin

I don't see why
We can't make it
Take it from here

I don't see why...

FIND A WAY

I've got a feeling inside
One that's hard to describe
That makes me wanna run and hide
I just don't know what to do
So I turn to you
Maybe you can see it too

If we're both together
We may find a way
Look to the heavens
For a brighter day

These are the days
That hopefully we'll look back upon and laugh
We've got to be strong
Until the madness is gone
It's the only way to make this pass

Everywhere I look it's the same
There's nothing to say
Only that we've lost our way
I need that look from your eyes
So I know I'm alright
Somehow we will survive

Maybe then together
We can break the spell
How the storm will weather
Only time will tell

These are the days
That someday we'll look back upon and sigh
So we've got to be strong
And keep movin' on
Till the memory of this disappears

If we stand together
We can find a way
Look to the heavens
For a brighter day

Maybe we can find a way to break the spell
How the storm will weather
Only time will tell
If we stand together
We can find a way
We can find a way

Yeah we can find a way
